The publisher regrets that an error occurred in the above article. The error is corrected as follows. The publisher would like to apologise for any inconvenience caused.

Page 246, Section 2.3.3., paragraph 2, lines 17–20 should read as follows:

An IGFBP-5(335 bp; Accession S52657) forward primer was constructed from bp 193 to 215 with nucleotide sequence of GTTTGCCTGAACGAAAAGAGCTA while the reverse primer was found between bp 275 and 297 with a sequence of CGAGTAG-GTCTCCTCTGCCATCT. The IGFBP-5 probe was located from bp 225 to 252 with the sequence of AGCCAAGATCGAAAGAGACTCCCGTGAG.
